In addition to standard safety apparel, Traffic Supply, Inc. stocks a full line of paddles, wands, flags and Safety Glasses to help keep your crews safe.

Tech notes:

- 18" STOP/SLOW paddles are the minimum size allowed by the CA MUTCD.
- By CA MUTCD standards, larger 24" paddles may be used on roads with traffic speeds of 30 MPH or more.
- Paddles must be reflectorized for use during hours of darkness.
- STOP/STOP paddles are typically used by school bus drivers and crossing guards.
- Traffic wands are great for increasing the visibility of flaggers during night time hours, but should not be used on their own within the public right of way.
