SE-AIR FILTER GX110  
SE-AIR FILTER GX120  
SE-CARB GX120  
SE-EXHAUST GASKET  
SE-FUEL CAP  
SE-OIL CAP  
SE-OIL SAE 30  
SE-PREFILTER GX120  
SE-ROPE AND HANDLE  
SE-SPARKPLUG B6HS  
SE-SPARKPLUG BM6A  
SE-SPARKPLUG BOOT  
SE-SPRING CARB GX120  
SE-STARTER GX120M  
SE-STARTER GX120P  
SE-STARTER HANDLE  
SE-STARTER ROPE FT

FILTER GX110/SOME GX120  
FILTER GX110-160  
COMPLETE CARB GX120  
EXHAUST GASKET GX120  
STEEL FUEL CAP GX110-160  
OIL CAP/FILL GAUGE GX120  
SAE OIL - 20 OZ  
PREFILTER GX110-160  
UNIVERSAL ROPE/HANDLE  
NGK "LONG PLUG" B6HS  
NGK "SHORT PLUG" BM6A  
PLUG BOOT - MOST HONDA  
DAMPER SPRING Gx120  
STARTER ASSY GX110-160  
STARTER ASSY GX110-160  
HANDLE - MOST HONDA  
FT - #6 STARTER ROPE

**Common service parts in-stock  
for Honda GX110 thru Gx160  
engines, without the lawnmower  
shop markup.**

**Over 8,000 additional parts for  
most makes and models of  
Outdoor power equipment  
available by special order.**

## Tech notes:

- Frequent preventative maintenance servicing greatly extends the life of your equipment.
- Unlike automotive engines, most small engines do not have filters to separate wear inducing contaminants like carbon and dust from the engine oil. These contaminants are kept in suspension by today's high detergent oils and destroy the precision ground surfaces.
- Daily inspection of the air filter is important. Loose or compromised filters allow airborne dust to rapidly wear the piston, rings and cylinder. A dirty air filter restricts air flow, reducing power and increasing fuel consumption.
