TrafficSupplyInc.com

If your organization, school, hotel, restaurant or church has the need for traffic control equipment, but you don't want your parking lot or entrance to look like a construction site, Traffic Supply, Inc. has the answer!

Tech notes:

- 48" Unframed metal valet pedestals are stocked. They're designed to accommodate multiple sign sizes, and are sufficiently heavy to not blow over under most conditions.
- Plastic and framed pedestals are available by special order.
- Signicades are stocked in white. Other colors are available by special order, as well as the smaller squarecade and thinner narrowcade. Signs can be attached to the signicade or the signicade can be lettered with your desired message.colors other than white by special order.
